Thanks guys. Do what you can but know that we would love to have you.

If only to walk us through the final and approved versions of WA and ID rulemaking so we know our “sidebars” for decision making.

Hi Brock,
Lon and I are still both trying to figure out travel arrangements, but at the very least, these dates should work for us in the event a call-in option would be available. I'll try and update you on our ability to make the meeting in person when I know more.

Thanks,

Matthew Szlag | Water Quality Standards Coordinator

Subject: HHC Fall Meeting

Good Afternoon,

At the end of our last HHC Technical Workgroup Meeting Michelle raised the possibility of holding a fall meeting in person. DEC would propose such an event to take place in Anchorage to make travel more convenient for the majority of the workgroup. While our teleconferences have been very productive, this will be an opportunity to have a more concentrated discussion on several of the key points identified in the gap analysis.

Right now we are considering two sets of dates within the same week: Oct 12-13 **OR** October 13-14. We would start mid-morning on the first day to accommodate those of you who would travel that morning.

Please take a moment to look at your respective calendars and let us know if you are able to attend.

<http://doodle.com/poll/m47ptsxh93rrwmtp>

Last thing, please remember to send me your notes/comments on the gap analysis by **June 1st** if possible. We plan to use this documents as a “guidepost” for future meetings.

As always, please let me know if you have questions or concerns.

Thank you,

Brock Tabor
